Strangely Deliberate Suicide of Miss Julia Albetz.

She Dressed Herself Up to Meet Death Voluntarily.

Then, Holding a Looking-Glass Before Her, She Sent a Bullet Through Her Brain—A Will and a Letter Explain the Deed—A Teacher in the Pope School.

Miss Julia Albetz, aged 25, a teacher in the Pope School of this city, committed suicide a 6 o'clock last evening at the residence of her widowed mother, Mrs. Barbara Albetz, No. 294 Geist Avenue. She had dressed herself through the head with a revolver, the act was committed while the young lady was alone in the house, the other members being absent on a short afternoon visit at the residence of a friend, and the discovery of her dead body upon their return was the first intimation of the horror-stricken family had of the awful affair. This discovery revealed such evidences of deliberation and coolness in the act that it proved double shock to the family, who showed that the unfortunate young lady must have thought over and planned her desperate deed for some time before its actual commission.

When the mother and elder sister of the young teacher returned home about 8:30 o'clock last evening they found the house silent and apparently deserted. When they had gone out several hours previously they had left Miss Julia Albetz in her room. Passing through the house from room to room in their search for her, they found the room, and without the slightest feeling of apprehension arising from her apparent absence, the mother and daughter found a note lying on a table in a room on the lower floor which contained the ominous lines "You will find me in the bath-room." Immediately hurrying up stairs they entered the bath-room on the second floor to meet there a most frightful sight. The dead body of Miss Julia Albetz lay stretched out at full length on the floor.

EVIDENCES OF DELIBERATION.

It was plain that the young lady, in the silence and loneliness of the deserted house, had gone about taking her own life with a most incredible deliberation. At her side on the blood-stained floor there lay a small mirror, which she had evidently held before her in one hand for the purpose of seeing with fatal clearness that the revolver was correctly aimed before the shot was fired that pierced her brain. Near her right hand lay the revolver with which she thus took her life, only one chamber being empty. And as if plainly in preparation for her voluntary death, the young school teacher was arrayed in her best clothing, every garment being arranged with the greatest care, and her toilet finished as daintily as though she had been dressing for some holiday occasion. Instant death had evidently followed the one shot from the pistol.

FOUND A WILL.

Overcome with grief and horror at the sight, the mother and daughter had been scarcely at first what to do, but finally, with the assistance of one or two neighbors, the body of the unfortunate woman was removed from the path-roots to another apartment, and the widow, Mrs. Albetz, who went to see if the daughter had left there any letters or papers explaining her awful deed. The only document found was a most peculiar one in the form of a brief note to her husband.

"My check for \$100, I bequeath to George; the check for \$200 to Charles; fifty shillings of my Elizabeth; my ring; and a small gold in garnet to Julia; my gold cloth dress and blue silk to Louisa; my gold watch and \$100 due me for funeral expenses." J.C.L.

There was also found, it is stated, a letter addressed to Mr. and Mrs. Albetz, the contents of which the family refused to make public, but which showed by its tone that the writer was contemplating suicide.

APPROVED CAUSE OF THE SUICIDE.

This morning Coroner Irwin was notified of the occurrence and an inquest was held immediately, a verdict being returned in accordance with the facts.

The supposed cause of the suicide is given as ill-health. It being stated that the young lady had been suffering from the heart affection of Dr. Ludwig P. Polman of 1424 Wright Street for a heart affection which swept over this section of Southeast Missouri.

At an early hour yesterday morning fire broke out on Main street, Chicago, destroying the stock of general merchandise belonging to Fred Hanlon and Eli Rosenthal. The loss is estimated at \$40,000. The insurance is \$12,000.

CHICAGO, Nov. 19.—A dispatch from West Superior, Wis., says: The decision of the Supreme Court to day in the case of Ellis vs. the Northern Pacific Railroad, affirming the decision of the lower court in favor of the plaintiff, was a surprise to many and was affected considerably by the value of \$1,000,000 involved in the suit. The amount involved in the decision and other suits will speedily follow. The amount involved in the Ellis suit was \$1,000,000, and it was turned into the hands of Judge Roberts through a quicksilvered decision given by the court for a number of years. The suit involved the University of their marriage and deserted her on or about Aug. 1, 1880. She asked for the name of her husband, who is now, Mollie Clark.

Mrs. Maggie Bollman filed suit for divorce yesterday against John W. Neiser, received Dec. 8, 1880, and lived together until November, 1888. She alleges non-support and desertion. There were no children.

Bell Telephone Patents Extended.

NEW YORK, Nov. 19.—The Times prints the following: The extension of the Bell Telephone for a term of fifteen years beyond the expiration of its original patents, which appears to be practically established by the issuing of a patent Tuesday to Emilie Berliner, assignor to the American Bell Co., has created a great stir in this city. A number of these gentlemen expressed the belief yesterday that the extension of the patent for more than fourteen years has been in "interference" at the patent office, has been contested by the Bell company in order that it might be brought forth as a means of extending the Bell's claim for the Bell's basic patent in 1880. The徳律風 claim for a telephone patent, which was filed in the patent office in November, left the way clear to the granting of a patent to Berliner, assignor to the American company.

A Fortune in Cats.

CHICAGO, Nov. 19.—A dispatch from San Francisco says: James Warder of the Concord Stock Co. is here from Fair Haven, Vt. He is a stockholder of a novel company just organized on Pine Street for the propagation of black cats. The island is to be purchased so that the cats can't mingle with the other cats of the region, and every black cat will be perpetuated. These black cats will be the fish and thus the expense of running the big farm will be reduced to a minimum. The cats are to be raised in a large enclosure and in public. The projectors expect to make millions out of it. Most of the original stock will be brought from Holland.

DISPUTE THE FEES.

The Gaty Heirs Object to Commissioner Hammatt's Charges.

A Suit Against the City Growing Out of a Fatal Accident at the King's Highway Bridge—The Damage Suit Against Ex-City Marshal Neiser on Trial—Other Court Matters.

A number of prominent real estate men were present in Judge Vailant's court to day, the occasion being the final adjustment of the partition sale of the remaining estate of the late Mr. H. H. Vailant. The value of the property was divided in parcels, and the remainder not being susceptible of division in this manner was sold at a special commissioner's sale. To bring this about a partition suit was instituted, the style of which was the Gaty suit, which was being tried by Mr. Hammatt, the attorney for the Gaty heirs. The trial of the case is to begin on Dec. 10. The controversy arose out of the failure of the parties to come to an agreement as to the partition of the property. The court appointed Mr. B. F. Hammatt, and the property was sold Nov. 12, and to day the suit was before the court to have the fees of the commissioner, auctioneer and attorney allowed.

The heirs who were represented in court to day by Attorneys John W. Kerr and Sim T. Fife, object to Commissioner Hammatt's fees for the usual 8 per cent. Under the statute they claimed that he was only entitled to the Sheriff's fee of 1 per cent for the first \$1,000,000, and 1 per cent for the remainder. The property sold for \$100,000, making Mr. Hammatt's fee \$100, to be paid to the Sheriff's fee, making the total \$25, because extra work had been entailed in the partitioning of the property.

The property was sold once for \$20,000, and the sale was set aside by the court.

The defense, Mr. Hammatt, is asking for \$25,000, and the plaintiff, Mr. Fife, for \$20,000.

GOOD AND CHEAP.

Florida and California Oranges Driving Out Foreign Fruits.

NEW YORK, Nov. 10.—The immense crop of Florida oranges, which is variously estimated from 2,000,000 to 4,000,000 boxes, has begun to stream northward. The last steamer from Savannah, which reached the port touched at New York, and yesterday the price touched \$1.50 a box in the wholesale market, though first-class fruit is still held at higher figures. Splendid Florida oranges sell at retail at 20 cents a dozen and before Christmas double this, to 40 cents and before New Year, 50 cents.

Whatever, for the Florida fruit, which besides being a sweater and more highly prized than the oranges of the north, is more attractively presented than ever before.

The flooring of the bridge on King's

Bridge, in order to extend the bridge at the east end, Stratton and two others were injured when they were removed.

Mrs. Stratton alleged that they were

not sufficient precaution taken to guard the bridge.

With Florida sending us 8,000,000 boxes of oranges, and the fruit exchange, "Florida," the Fruit Exchange, and California, shipping us 1,500,000 boxes, this will have a

large effect on the market.

You can see where the price is going under these circumstances, but the public will certainly be surprised.

"With the new tariff for the Florida crop,"

said Isaac Tuck, editor of the *Florida Trade Journal*, have done the business for the State of Florida, and it can't be believed that we will import 7,000 boxes of these oranges this season, where we imported 100,000 boxes last season.

The Transfer Company's Stables Again
Set on Fire.

The regular semi-monthly incendiary fire
broke out at 11 o'clock last night in the old
St. Louis Transfer Co. stables on the north-
east corner of Main and Spruce streets. The
Transfer company vacated the stables last
spring, and for several months they re-
mained empty. During the summer they were
used as a place of shelter for wagons loaded
with merchandise, and for a month past
part of the building has been used as a
junk shop for rags, old iron, bottles and
other such material. While the building
was in use it was visited by tramps
who set fire to it about once a week.
